Brand guidelines.

Engineering with product clarity.

A calm, precise identity for an engineering professional. Make the person, the work and the qualifications easy to understand.

Clear facts.

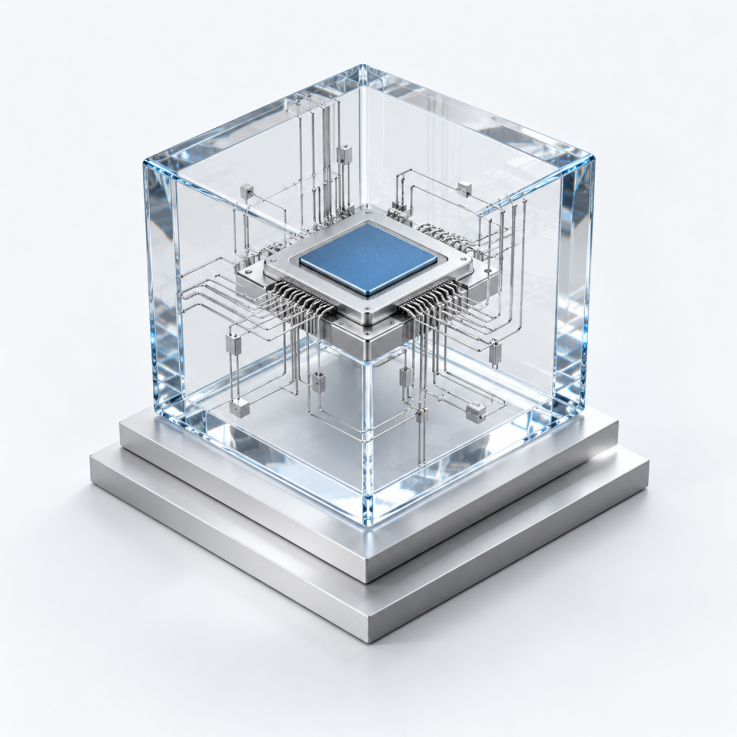

Lead with the professional record. Every claim should be traceable.

Quiet confidence.

Let typography, spacing and structure do the work.

Depth in the image.

Silver and glass carry the material character. The interface stays light.

For IT recruiters and professional contacts. The full identity uses Chua Jia Sheng; the compact navigation name is Jia Sheng.

Recognizable. Restrained.

Jia Sheng

Compact website lockup

Keep the lowercase **js.** and its period. Normal website mark: 32px, with 9px corners and an 11px name gap. Clear space: at least one quarter of the mark width. Recommended print minimum: 8mm. Preserve proportions and contrast.

The core palette

White
#FFFFFF
Main canvas and reading surfaces

Soft Gray
#F5F5F7
Quiet bands and supporting tiles

Near-Black Ink
#1D1D1F
Headings, body and selected states

Action Blue
#0066CC
Actions, links and keyboard focus

Secondary Gray
#68686E
Descriptions, dates and metadata

Study Tint
#ECF2F8
Education overview surface

Blue has a job. Use it to identify an action. Keep large reading surfaces neutral. Avoid decorative gradients, glows and competing saturated accents.

One voice. Clear hierarchy.

Geist Variable

Regular 400 **Semibold 600**

Self-host the font. Use 400 for reading and actions; use 600 for headings and strong labels. Write in sentence case. Keep paragraphs open and display lettering tightly tracked.

Website role	Size	Weight	Leading
Identity display	58-96px*	600	1.08
Section heading	34-48px	600	1.10
Professional role	20-28px*	400	1.30
Entry title	17-20px	600	1.35-1.40
Main introduction	17px*	400	1.60
Detailed résumé copy	14px	400	1.60
Metadata / controls	12px / 14px	400	Natural

* Phone display: 47-68px. Role: 19-21px. Introduction: 15px. Keep dates and counts in tabular numerals.

Space supports the content.

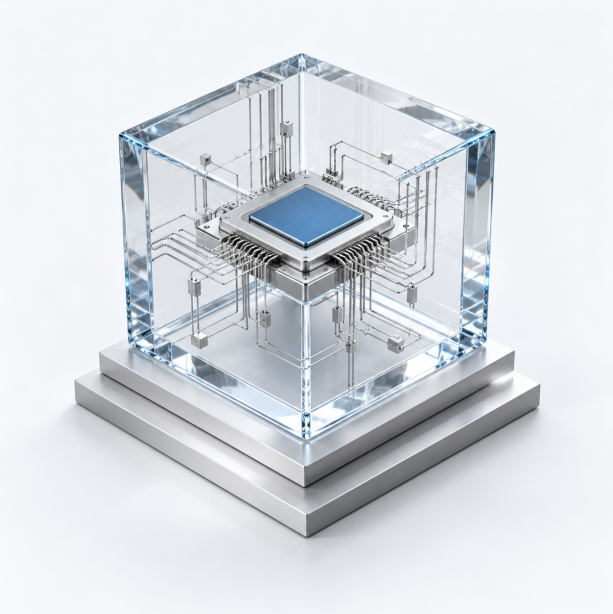

Engineering overview

Study & service

Desktop overview ratio: 1.45:1. Stack below 768px. Shell: 1184px, including gutters. Side padding: 32px desktop, 24px mobile, 20px small phone.

Section spacing: 112px desktop / 76px mobile. Overview corners: 18px. Inputs: 10px. Primary actions: pills. Keep reading lists flat.

Precise in every detail.

Material, not decoration.

Cool studio light. Silver and glass. White or soft-gray ground. The processor is an abstract computing illustration, not a photo of a completed project.

Use Phosphor icons consistently. Label standalone icon controls; hide decorative icons from assistive technology. Keep imagery factual and uncluttered.

Say what is true.

Use short, direct sentences. Name the role, qualification or work performed. Preserve expected graduation dates and distinguish course completion from certification.

Computer Engineering undergraduate at NTU.
Expected completion 2030.
CompTIA Network+ N10-009 - 2026. Udemy course completion.

Make the next action clear.

Download résumé. View LinkedIn. Reset search. Use blue pills for primary actions. Keep mobile controls at least 44px. Preserve visible keyboard focus, instant filtering and reduced-motion support.
